Subject: Willamette cleanup

To whom it may concern,

I am writing because of concerns about the scope and accountability detailed in the draft cleanup plan for the Willamette. The current plan removes far too little contaminated sediment from the Willamette River and is a "do nothing" plan in its prescribed "Monitored Natural Recovery". Polluter's need to be held accountable for damaging the environment that my family lives and plays in. Please let me know the date when we will be safe to again fish and play in the Willamette.

Sincerely,

(b) (6)
